

The First Tee National School Program

The first Tee National School Program provides a tremendous value to the overall school-wide curriculum because of it's core values that include an emphasis on character development, education, and fitness and because golf is a lifelong activity.

Additional money generated from this Golf Tournament will go toward the purchase of golf equipment that the YMCA will use with it's afterschool program. Additional equipment will be purchased for regional schools so that PE teachers can introduce golf to all students during PE Class. Children will receive an overview of the game of golf, how it is played, basic skills and instruction, and an introduction into the positive values and life skills associated with the game through the First Tee's Core Values.

The Lakes
Golf Course at Laura S. Walker

ENTRY FORM

The *mission* of **Hook A Kid on Golf** is to provide communities with a comprehensive youth golf program that eliminates all the obstacles that may discourage youngsters from learning and continuing to play golf while instilling in them an understanding of golf's rules, etiquette and history. The program provides the community with the tools necessary to provide an organized youth golf program.

Earnings from the Childers Family YMCA Golf Tournament will help to fund Junior Golf **Hook A Kid on Golf** Tee Level Clinics this June 2012, as well as two Green Level Clinics to be held for those students that have completed the Tee Level Clinics. The Green Level Clinics will be held in May and July 2012.

The YMCA is partnering with The Lakes Golf Course at Laura S. Walker State Park through the direction of PGA Golf Professional, Laurie Adams to be able to continue bringing and building Junior Golf In Southeast Georgia.

In June 2011, Laurie Adams hosted the 1st ever **Hook A Kid on Golf** Tee Level Clinic in our area. 82 children successfully graduated from the Tee Level Golf Clinic. By the Summer of 2012, we hope to raise enough money to ensure two additional weeks of Tee Level Clinics and introduce two new weeks of Green Level Clinics at The Lakes Golf Course at Laura S. Walker State Park under the directions of Laurie Adams.
